

DAMIAN LOPEZ FDEZ

FRONTEND DEVELOPER

Email

damianlopezdev@proton.me

HI

With over 2 years of experience as a developer, I specialize in creating accessible, high-quality software solutions that integrate design and technology. My focus is on developing applications that are both functional and aesthetically pleasing. Driven by continuous learning, I seek to surround myself with more experienced professionals to constantly improve and adapt swiftly to new challenges, fostering sustained growth both personally and professionally.

EXPERIENCE

July 2022 - Present

Viewnext
FrontEnd Developer

- Develop high-quality interfaces for a prominent banking sector client, applying best practices and maintaining efficient code to ensure robust solutions.
- Successfully implement new features and bug fixes to enhance and expand the product while reducing technical debt.
- Implement CI/CD practices to optimize software delivery efficiency and minimize error incidence.
- Provide proactive support to team members and assist in the onboarding process of new hires.
- Promoted from grade 1 to grade 2 through effective and consistent performance of assigned responsibilities.

March 2022 - June 2022

Viewnext
Internship

- Actively learn and adopt the technology and tools defined by the team.
